

QUALIFICATION

Bachelor of Commerce
(SAQA ID 90509, NQF LEVEL 7)

Bachelor of Commerce with a Major in **BANKING**

Mode of Delivery:
Distance Learning Online

**We've got you.
You've got this.**

1 Description and Programme Purpose

The global banking industry is facing unprecedented change due to new developments in the areas of digitalisation, machine learning and artificial intelligence. At the same time, some of the core competencies for banking are still required.

The Bachelor of Commerce (**BCom**) degree with a major in Banking will function as a solid basis to enable graduates to operate responsibly and successfully in the banking environment, bearing in mind the changes that the industry is experiencing.

[Learn More](#)

2 Who Should Enrol

The programme would be suitable for:

An employed person who wants to enhance his or her knowledge of the core areas of banking.

A person employed in the banking, financial services or micro-loans industry.

A person who wants to gain the relevant specialised knowledge in the areas of banking required to pursue a career in that field.

A person wanting to complete a degree which appears on the Financial Sector Conduct Authority's (FSCA) list of recognised qualifications for FAIS Fit and Proper purposes.

Compulsory

**Applied
Financial
Accounting
AFAC02-6**

This module builds on the introductory *Principles of Accounting ACCP02-5* module. Students will learn about the **different types of trade entities and their unique accounting needs**. It also introduces the concepts of VAT and depreciation. On successful completion of this module, students will be able to do forecasting, prepare reports and analyse the different financial statements. *Principles of Accounting ACCP02-5* is a prerequisite for this module.

This module will introduce students to **bank financial statements** and how banks generate money. It will also touch on some other specialist banking topics suitable for this **NQF level**, such as capital requirements and asset-liability management. Regulation and Compliance in the Banking Industry RCBI02-5 and Introduction to Retail Banking INRB02-6 are prerequisites for this module.

**Bank
Management
BAMA01-6****Business Law
BLAW1B-6**

This module covers the South African **legal framework as it relates to the business environment**. Specific reference is made to the principles of contracts applicable in the commercial environment. The requirements for a valid contract, as well as the consequences of valid, void and voidable contracts, are dealt with. In order to ensure relevance, the law of contract is dealt with as it applies to different commercial interactions, including agency, sale, letting and hiring, insurance, surety, negotiable instruments, consumer credit agreements and consumer protection.

In this induction module, students are **provided with the essential mathematics and business numeracy skills** and knowledge to be successful with entry-level business degree studies in subjects that require these skills and knowledge. **The course is divided into two weeks**. Topics 1 and 2 focus on basic numerical skills, such as integers, fractions, decimals, notation, percentage, ratio and proportion. Topics 3 and 4 focus on business-related applications, such as equations and formulae, representation and analysis of data, measurement and tax calculations.

**Business
Numeracy
BNUM01-5**

Financial Markets FMAR01-7

The purpose of this module is for students to **gain insight into the operation** of the South African financial system with reference to money market instruments, capital or bond market, share market, derivatives, term structure of interest rates, efficient market hypothesis, insurance, and retirement funds. We would like to make students aware that the **content of and assessments for this module consists primarily** of calculations, based on the topics at hand. *This module is only on offer in Semester 2. Bank Management BAMA01-6 and Risk Management in Banking RMIB01-6 are prerequisites for this module.*

The General Management module builds on the **fundamental principles of business management learnt in earlier modules** (from the first and second years of your study). It aims to develop general management competencies in areas such as planning, organisational structure, decision-making, teamwork, leadership and motivation. It also aims to **strengthen your knowledge** of critical and contemporary management issues, such as ethics, corporate social responsibility and workforce diversity. The emphasis lies in the integration of these diverse competencies and skills sets to enable you as an emerging manager, to function effectively in a dynamic business environment. *Management and Leadership MLED02-6 is a prerequisite for this module.*

General Management GMAN01-7

Global Banking Operations GBAO01-7

The purpose of this module is to introduce students to **aspects of international banking** and the international monetary system. It introduces students to the concept of international trade, and the structure and goals of central banking both in **South Africa and in the USA**. Students will be exposed to monetary policy systems and policies through case studies. Students will be required to **evaluate different international banking products** that banks could sell in specific situations, based on an understanding of the workings of foreign exchange. Furthermore, an understanding of strategies for global banking risks will be needed. The course will end off with a review of the potential impact of the latest global financial technology developments on banks. *Bank Management BAMA01-6 is a prerequisite for this module. This module is available in Semester 2 only.*

We've got you. You've got this.

On this induction module, students are provided with the skills and knowledge to be successful with **entry-level business degree studies**. Making the most of the online learning environment is at the heart of success for degree studies, and students are exposed to the requirements, practices and techniques that will help them to succeed. The academic reading and writing component exposes students to good reading techniques, guides them through the writing process, and helps them to write successful academic essays. The **study skills component** is aimed at providing students with basic information and techniques on how to improve their study skills – from preparation to exams. *Students need to register for this module and Business Numeracy BNUM015 before they will be allowed to register for any further modules.*

**Induction
to Business
Studies
INDBS1-5**

**Intermediate
Macroeconomics
INME02-6**

This module is aimed at providing students with an **understanding of the central concepts of macroeconomics**. The students gain a conceptual and contextual understanding of macroeconomic events, as well as policy issues such as balance of payments, unemployment, inflation and economic growth. The module **emphasises Classical and Keynesian types of macroeconomic** policies. Different monetary policies under various exchange rate regimes are analysed. Students gain a deeper understanding of the functioning of the different markets; that is, the goods market, the financial market and the labour market. The course will also prepare students for further study in economics. *Principles of Microeconomics PMIC02-5 and Principles of Macroeconomics POME02-6 are prerequisites for this module.*

International Economics ECIN01-7

This module is aimed at providing students with **fundamental knowledge in the key areas of international trade**. Using microeconomic analysis, students will explore trade patterns (that is, the movement of goods and services/factors production), as well as the prices thereof, across borders. In addition, the module covers the flow of goods and services, labour and capital, and the classical theories of trade. The module deals with the **standard theory of international trade** as a basis for trade, as outlined by the factor endowments/proportions theory. International trade policy – from both an individual country and aggregate level perspective – is discussed. The course will also prepare students for further study in economics. *Intermediate Macroeconomics INME02-6* is a prerequisite for this module.

This module introduces the students to the **fundamental principles of management and the essential skills and competencies** needed for effective management. Students are exposed to the primary management tasks of planning, organising, leading and controlling. **Supporting** management tasks such as communication, motivation and delegation are also covered. Further, students are introduced to how these management competencies and tasks are applied across management functions; notably, operations, financial, marketing, and human resources management.

Introduction to Business Management INBM02-5

Introduction to Retail Banking INRB02-6

Students are **introduced to the banking industry and the financial services sector**. They will learn about the financial ratios required by the South African Reserve Bank, and how to effectively manage the banks' assets and liabilities in order to increase profitability. The **relationship between** banks and customers is discussed, as is pricing. The module covers different banking and insurance products available, and how to match them to different clients' needs. It also explains different sources of finance for businesses or business ventures. Current trends in the South African banking industry are highlighted. *This module is only on offer in Semester 1.*

The purpose of this module is to provide a **holistic picture of the dynamic and evolving concept of leadership**, taking into account typical African circumstances, values and beliefs in order to equip students with entrepreneurial and managerial leadership skills that will contribute towards the **facilitation of a transformed** African society. Students will be exposed to the basic strategies that can be implemented to ensure successful leadership and change initiatives in the corporate environment. A structured approach to ethical, **transformational and entrepreneurial** leadership will also be presented. Introduction to Business Management INBM02-5 is a prerequisite for this module.

Management and Leadership MLED02-6

**Marketing
Management
Practice
PMAR01-6**

The purpose of this module is to provide a holistic picture of the field of **marketing management** and the resultant marketing strategies that can be implemented to obtain a competitive advantage. The module provides more insight into the **context of the contemporary marketing landscape** and presents students with a structured approach to developing a marketing plan. Topics include an analysis of the marketing environment, market targeting and positioning, as well as strategies that can be implemented to obtain a competitive advantage.

This module introduces students to the **basic principles of accounting**. The double-entry principle and accounting equation are addressed. In addition, students are introduced to different types of journal entries, ledger accounts and bank reconciliation statements. Different types of financial statements are also introduced.

**Principles of
Accounting
ACCP02-5**

**Principles of
Macroeconomics
POME02-6**

Macroeconomics focuses on the **economy as a whole**. The economic system is studied, with special attention paid to aggregate economic behaviour and aggregate economic performance. In order to do this, students will be **introduced to topics** such as total production, income and expenditure, economic growth, unemployment, inflation and the balance of payments. Through linking economic action on a microeconomic level (the individual) with economic action on a macroeconomic level (all the individuals added together), we develop an overall view of the economy. The aim of this module is to develop students' understanding of the structure and performance of the South African economy.

This module aims to introduce students to the **discipline of economics**, including microeconomic theory and its application to economic analysis. Economic principles are then applied to a wide range of individual and business applications to give a solid grounding in microeconomics. The module emphasises the **importance of managing scarce resources**, demand and supply, the price mechanism, and consumer and producer equilibrium in an economy. It also provides a basic understanding of the different market structures that exist. Economic concepts, tools and techniques will be evaluated as explanations of economic behaviour.

**Principles of
Microeconomics
PMIC02-5**

Regulation and Compliance in the Banking Industry
RCBI02-5

This module sets out the **key legislative Acts applicable to the banking sector**, and further applies relevant risk and compliance methodologies. The module will assist you in understanding how regulatory compliance is managed within the banking sector and provides an overview of the main regulatory Acts that impact on the banking sector. The responsibility for complying with these Acts rests on all employees of an organisation.

This module focuses on **risk management in the banking environment**. It introduces students to the general concepts of the risk management process and **different risks that banks face** and how to manage them. The purpose of this module is to provide critical knowledge and understanding of various types of risk in the banking services industry, and to develop the practitioner's skills and ability to apply principles and techniques in order to make informed decisions in relevant work situations.

Risk Management in Banking
RMIB01-6

Risk Management
RISM01-7

This module covers the **principles and practices of risk management** at corporate, strategic business and project levels. Students become aware of the various types of risks, how to analyse risks, and a range of response strategies. It also introduces students to principles of corporate governance and the ethical debate in the financial services sector. *This module is on offer only in Semester 1.*

The module aims to equip students with the **generic knowledge needed to manage the introduction or change of technology**, its impact on the organisation's operations, and ultimately, on the attainment of organisational objectives. Key themes covered in the module include the strategic importance of innovation and technology management, managing disruptive change and harnessing the technology lifecycle. *This module is on offer only in Semester 2 on DL.*

Technology and Innovation
TIMA01-7

Compulsory

Banking without Boundaries BWBO01-6

The purpose of this module is to introduce students to the effects that **technological disruption will have in the banking industry**, from different angles. Students will reflect on **banking as a future career** and how to serve customers in a virtual world, using new technologies and delivery mechanisms. This module is important for students in the banking field today, since they are at the forefront of these developments. *This module is only offered in Semester 1.*

Business research is about a systematic inquiry that helps to **solve business problems** and contribute to management knowledge. The purpose of this module is to introduce you to basic business research methodology. This module will guide you towards **identifying and describing a research problem**, drafting a basic research design to investigate the problem, and engaging in a literature review. The final task will be to draft a basic research proposal that will serve as a blueprint for a possible research project.

Business Research Methods BREM01-7

Financial Management 1 FINM02-6

This module introduces students to the **fundamentals of financial management**. It explores the purpose of financial management, the role of the financial manager, and the interaction between financial management and other disciplines. The module equips students with the **necessary tools to analyse** financial statements, appraise investment opportunities, identify appropriate sources of funds for a business, and manage working capital in a business. Financial Management 1 FINM02-6 provides the foundation for further studies in corporate finance and other related modules. *Principles of Accounting ACCP02-5 is a prerequisite for this module.*

This module develops further the concepts introduced in *Financial Management 1 FINM02-6*. It exposes students to the **valuation of financial assets**, further issues in capital budgeting (such as capital rationing and risk in capital budgeting), mergers and acquisitions, leasing decisions, and financial management in a global environment. *Financial Management 1 FINM02-6 is a prerequisite for this module.*

Financial Management 2 FINM02-7

Taxation TAXN01-6

This module serves to provide an introduction to taxation in the South African context. The module will cover **fundamental taxation principles** such as gross income, exempt income, deductions, fringe benefits, capital allowances and recoupments. The calculation of the tax liability of companies, close corporations, partnerships and sole proprietors is also covered, as are taxation of retirement benefits, provisional tax, donations tax, value-added tax, SITE and PAYE. Students are introduced to the fundamental principles relating to **tax avoidance and tax evasion**.

3 Admission Requirements

The admission criteria for the **Bachelor in Commerce degree** can be found on the website. *Scroll down until you find the relevant section “Admission Requirements”.*

Student Support

Library access

The Milpark library provides **access to eBooks in a virtual library called Cyberlibris (Scholartext)**. Lecturers may create smart bookshelves per course or module for students to access (these shelves can contain prescribed and recommended books). Students can also create their own personal smart bookshelves containing resources for their studies. Having access to a digital library means that **thousands of students** can access books and resources from anywhere at the same time online.

There is **no need to make reservations** and requests, and no limit to the time a student has to access a book. With the implementation of Cyberlibris, students also have access to full-text resources via ProQuest (global), Ebsco (global) and Sabinet (South African publications) to assist with research and to enrich their learning experience. Access to the library is included in the module fee.

Tutor

Comprehensive student **support services are available**. Students are provided with administrative support by Student Services. To assist with understanding content, students have access to tutors whom they can contact individually. Students who experience study and/or personal problems have access to a student counsellor. **All support services are available** to registered students via *myMilpark (myCourses)*.

7 Rules of Progression

Compulsory modules have to be completed by all students. Students are required to select one of the majors, which will determine the electives available to them.

Most of the **advanced modules** have prerequisites, which are indicated in Module Descriptions.

Candidates may NOT register for any Level 2 or Level 3 modules if they still have four or more modules outstanding on the previous level. Candidates with any outstanding first-year module(s) may **NOT register for any third-year module.**

8 Assessment

Formative **assessment contributes 30%** to the final mark and consists of a combination of assignments and tests. The exact formative structure per module will be communicated to the student at the start of the semester.

Students will complete a final, summative assessment per module at the end of each semester, which **contributes 70% towards the final mark.** Students need to obtain a sub-minimum mark of 40% in the final, summative assessment and an overall mark of 50% in order to pass the module.

9 Duration

Part-time and distance-learning students have a minimum of three years and a maximum of nine years to complete the qualification.

10 Certification

On successful completion of the qualification, the student will receive a **Bachelor of Commerce degree, NQF Level 7**. The Bachelor of Commerce degree is accredited by the Higher Education Quality Committee of the Council on Higher Education (CHE).

11 Further Studies

Milpark Education is committed to the process of **lifelong learning and opening access to higher education**. The programme is at NQF level 7 and will provide for articulation options into NQF level 8 programmes. Narrowly, students may proceed to a Postgraduate Diploma in Banking, a Postgraduate Diploma in Investment Management or a Postgraduate Diploma in Business Administration (offered by Milpark Education) or an Honours degree (at any number of public universities) in one of the disciplines, subject to **meeting the admission** and selection criteria of the receiving institution.

A student who has completed certain modules on this qualification at Milpark Education and who wishes to **transfer to another tertiary-level institution** should be able to apply for exemption from relevant modules on the basis of the modules that have been passed at Milpark Education.

12 Pricing

All module fees **include one round of formative and summative assessments** (supplementary examinations excluded). Module fees do not include the cost of prescribed textbooks, which will be for the student's own account. The prescribed book list will be available on *myMilpark* on registration.

13 Disclaimer

The content of this brochure is accurate at the time of going to print. Milpark Education reserves the right to change the programme content due to changes in legislation, market requirements and other reasons. Notice of such changes will be published on our website.
